WARNINGS

- Handle with care.
- Avoid contamination of the eyes with the concentrate.
- Toxic to fish and other aquatic life. Do not contaminate water bodies.
- Flammable - do not store near open flame.
- Store under lock and key in a cool place and away from food and feedstuffs.
- Keep out of reach of children, uninformed persons and animals.
- DO NOT HANDLE TREATED FABRICS UNTIL DRY AND AIR THOROUGHLY BEFORE USE.
- IN CASE OF ACCIDENTAL POISONING, CALL A DOCTOR AND MAKE THIS LABEL AVAILABLE TO HIM.
- IN CONTINUOUSLY OCCUPIED AREAS USE ONLY AS A BAND, SPOT OR CRACK AND CREVICE TREATMENT. DO NOT APPLY TO CLOTHING OR BEDDING. UNPROTECTED PERSONS AND ANIMALS MUST BE KEPT AWAY FROM TREATED AREAS UNTIL SYRFACTS ARE DRY.

Although this remedy has been extensively tested under a large variety of conditions, the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label and the occurrence of resistance of a pest against the remedy concerned as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or due to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS

- Avoid inhalation of and contact with the spray mist.
- Cover food, food preparing equipment and eating utensils before application. Remove or cover fish tanks/bowls before application.
- Wash with soap and water after accidental skin contact.
- In case of accidental contamination of the eyes, wash the eyes thoroughly with running water.
- Do not eat, drink or smoke while mixing or applying unless having washed hands and face.
- Use appropriate containment to avoid environmental contamination
- Keep product in original container
- Keep container tightly closed
- TRIPLE RINSE empty containers in the following manner: Invert the empty container over the spray applicator and allow to drain for at least 30 seconds

after the flow has slowed down to a drip. Thereafter rinse the container three times with a volume of water equal to a minimum of 10 % of that of the container. Add the rinsings to the contents of the spray tank before destroying the container.

- Destroy empty containers by perforation and flattening and never re-use for any other purpose.
- Avoid contamination of food, feeds, drinking water and eating utensils.

FIRST AID TREATMENT

- IF IN EYES :** Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open.
- IF SWALLOWED :** Immediately rinse mouth and then drink plenty of water, do not induce vomiting, seek medical attention.
- IF ON SKIN :** Wash skin with plenty of soap and water.
- IF INHALED :** Keep patient calm, remove to fresh air, seek medical attention.

NOTE TO PHYSICIAN

TENOPA® SC contains a pyrethroid insecticide and an acylurea insecticide. This product is of low toxicity by oral and dermal routes. Poisoning is unlikely to occur. Treat according to symptoms (decontamination, vital functions), no known specific antidote.

DIRECTIONS FOR USE

USE ONLY AS DIRECTED

Compatibility: TENOPA® SC should be applied as a solo product and NOT in mixtures with any other products

Mixing instructions: Apply using any conventional manual or power sprayers equipped to produce a coarse spray. Add the appropriate volume of TENOPA® SC to the required volume of clean water and agitate. Maintain agitation while spraying. Prepared spray mixture must not be left in the spray tank for any length of time, e.g. overnight.

All spray applications must be made with suitable equipment that is in good working order and correctly calibrated to give the desired coverage for that particular method of application.

PEST	DOSAGE	DIRECTIONS FOR APPLICATION
<p>PUBLIC HEALTH House flies, Brown house ant, Bedbugs, Fish moths, Fleas and Cockroaches (American & German)</p>	<p>25 ml - 50 ml per 5 litres and apply to 100 m²</p>	<p>Apply as a coarse spray or with a paintbrush to cracks, crevices and any other places where these insects may hide and on surfaces over which they may crawl or settle. Apply as a coarse spray to the point of run-off Use the higher rate where infestation is severe or where surfaces are dirty or highly absorbent.</p>
<p>POULTRY SHEDS (When not occupied by birds) Lesser Mealworm / Litter beetle (<i>Alphitobius diaperinus</i>)</p>	<p>25 ml - 50 ml per 5 litres and apply to 100 m²</p>	<p>Apply as a coarse spray to the interior surfaces of the sheds. Ensure thorough wetting of the floors, walls and other surfaces. Repeat if necessary. Use higher dose rate for longer lasting control or where infestation is severe. (DO NOT SPRAY WHILE BIRDS ARE IN THE SHEDS). Ensure that the spray has dried before animals re-enter. Alternate treatments with a pesticide from a different chemical group. Should efficacy be poor or when reinfestation occurs, use a pesticide from a different chemical group.</p>
